## Yoga

FCC offers Yoga every Tuesday, Wednesday and Thursday from 9:00am-10:00am.

All our welcome to attend and it is only \$5 a class!

*Meet your instructor Morgan L Brown:*

Yoga has been a wonderful part of my life for almost 7 years. It allows me to create a space for mindfulness and relaxation while connecting to movements within the body. Growing up in south-west Arkansas, yoga was not a big part of my life until college. I found it while searching for an exercise that could help with my anxiety and joint pain. Once I tried yoga, I quickly realized I had to share this experience with others. I completed my 200 hour yoga training at Yoga Deza in spring of 2016. My favorite styles of classes to teach are vinyasa and yin yoga. Vinyasa is a flowing sequence of poses that involves connecting the breath to each movement. Yin yoga is a slower pace style of yoga that allows you to find a deeper stretch while holding the poses for longer periods of time. I enjoy learning each of my students individual needs to better suit their yoga practice. Combining creative sequencing with a bit of playfulness, my students grow stronger, more flexible, and relaxed both on and off the mat.

## Hole in One!

on Wednesday, September 27th  
on Hole #9!

# FOOD & BEVERAGE

## *Chef's Cravings:*

It's finally that time of year, the leaves will start to fall, the temperature hopefully will come down a little, and the food gets better to cook and eat. Not that summer and spring do not offer great food, it's just that fall is cozy and homey making for great comfort food and fall themed dishes! We are already equipped with our first case of butternut squash and will soon have the pumpkins I spoke of last month. With that said, Peter and I are putting the finishing touches on our fall menu and a take home dinner menu that we will offer easy meals for you and your family. You will see the return of a fall salad and a pasta dish. We had great reviews on both, so I just made a few little Chef changes and we are good to roll. The salad will have a house made pumpkin poppy seed vinaigrette dressing and both dishes will include butternut squash. The take home menu is a great concept that will be nice for families and quick meals. There will be a menu that you will see in the next month, and then all you need to do is place the order, and we will make it! All you have to do is pick it up, take it home and throw it in the oven. Easy, right? The meals are designed to feed 4-6, maybe 2-4 depending on appetites. I know as delicious and heartwarming as these meals are, I would eat the whole thing!

On another note we are still taking bookings for Chef's Tables. The Henson's and the Shaw's had their second Chef's Table this past weekend because the first was so good! A big thanks to them for coming out and supporting the Club! Next up is our Oktoberfest German Outdoor Picnic this Friday, October 6th. Don't miss out on this great evening of German wine, beer, and food!

We all look forward to seeing the membership come out and take part in the Chef's Table dinners and events. If you feel like having us design a menu for you and watch it all happen, then give us a shout and book a table. Also, keep an eye out for upcoming special events!

- Chef Levi Zindl

## *Chef's Table*

Friday & Saturday evenings for  
2-8 people.

Chef Levi will create a menu for you and  
your guests while you sit back and watch  
all the action!

# GOLF & GREENS

## ***Golf & Greens:***

Last week, fall officially began. And while it hasn't exactly felt like autumn lately, the golf course maintenance staff has been busy preparing for the colder months.

Our first order of business was last month's green aerification. Ideal weather and growing conditions led to a rapid recovery of the greens and they were back to normal in only a couple of weeks. It has been a really good year for growing bentgrass greens in our region.

Two weeks ago, we started applying our fall pre-emergent application for the prevention of winter weeds on fairways, tees and around greens. This application is applied with a fertilizer high in potassium. Potassium is important for preparing the bermudagrass for the winter months providing some defense against winter injury. We will continue applying potassium through the next 4-6 weeks on fairways, tees and around greens.

This is also the time of year we raise the heights of cut on fairways, tees and greens surrounds. We mow these areas at approximately a ½ inch mowing height throughout most of the growing season. However, in September, we begin gradually raising the height to just over ¾ inch by late October. Considering we usually experience around 5 months of dormancy in northwest Arkansas, this extra canopy is important for providing protection for the bermudagrass against traffic and winter injury.

With approximately 1500 trees on the property, leaf removal is a big task this time of year. The dry spell we are currently experiencing has started the leaf drop a little earlier than normal. This will be a constant battle for the next 6 weeks or so, but we will do our best to keep the course as clean as possible so you can enjoy, what I believe is, the best time of year to play golf. I hope to see you on the golf course soon.

-Brandon Nichols, Golf Course Superintendent
